Donald J. Trump
@realDonaldTrump

Donald J. Trump | So Crazy to watch Senator Blumenthal of Connecticut lecture all on morals & ethics when for 25 years he said he was a Great War Hero in Vietnam, and he was never even there. He lied & cheated right up until the day he got caught. Thank you to those in military who turned him in!

Twitter Responder | Since when does Cadet Bone Spurs have any right to say anything about our military?

Donald J. Trump | STOCK MARKET UP BIG!

Donald J. Trump | Remember, I wouldn't be President now had Obama and Biden properly done their job. The fact is, they were TERRIBLE!!!

Donald J. Trump | Record 96% Approval Rating in the Republican Party. 53% Approval Rating Overall. Record 56% "Better Off Now" than 4 Years Ago (Gallup) during the Obama/Sleepy Joe Biden Administration, even as we round the turn on the China Plague. Thank you. Next year will be the BEST EVER!!!

Twitter Responder | At least 215,000 Americans are not better off than they were under Obama/Biden, they're dead!

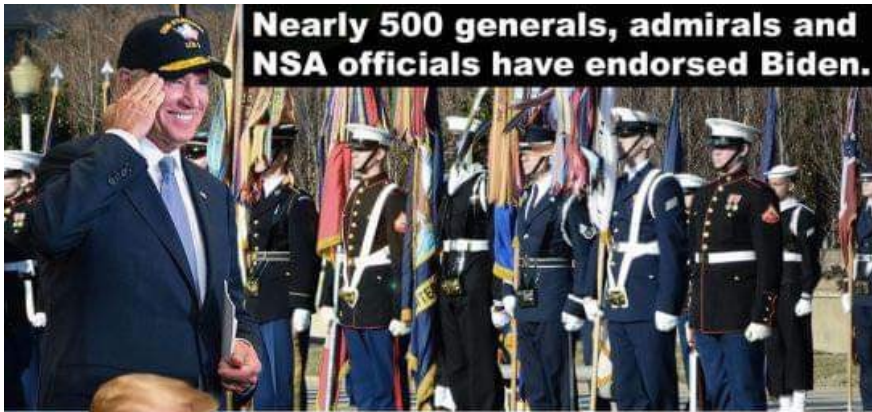

Twitter Responder | Most Americans (who aren't White Supremacists, or racists, or religious hypocrites, or fake "patriots") are beyond tired of this President's utter nonsense.

Twitter Responder | The Left is determined to steal this election because they KNOW fraud is their only path to victory!

Twitter Responder | I'm sorry sir, but you've lost your own demographic - old whites!

**The election is rigged...unless I win.
The news is fake...unless it's flattering.
Everything is a hoax...unless I tweet it.
Nepotism is bad...unless it's my family.
I'm rich...but you can't see my taxes.
I'm smart...but you can't see my grades.
I'm successful...but my businesses fail.
My staff is the best...until I fire them.
I'm innocent...but I stop staff from
testifying.**

Nearly 500 generals, admirals and NSA officials have endorsed Biden.

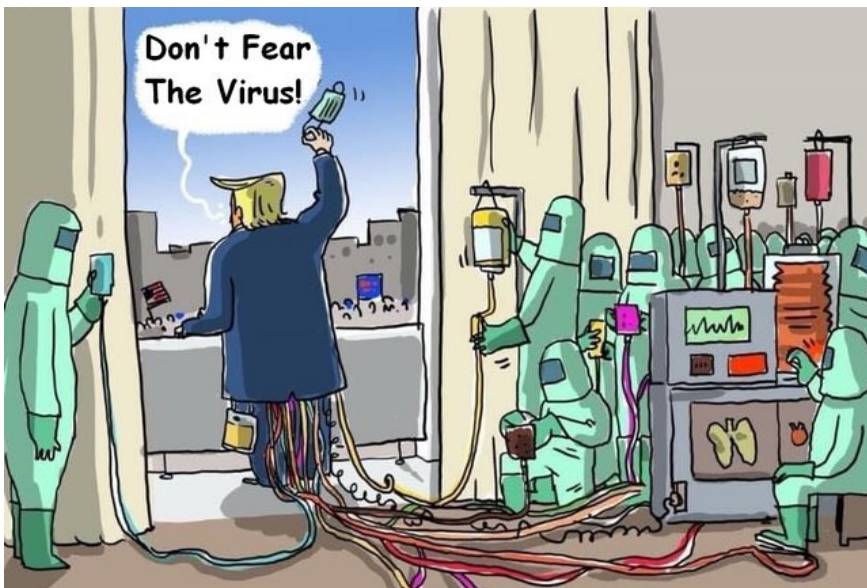

The Taliban just endorsed Trump.

If you hired a guy to Make Your House Great, and he hired his incompetent children, stole your money, gave it to your richest neighbors, let everyone get sick, killed your grandma, backed over your mailbox, burned down your house and blamed Black people. Would you hire him again?
